Thank you Kristen.

They look good to me. I have forwarded them to Ann. If I remember correctly, the four transformers in the pumphouse became "stored for disposal" at some point. Please remember to indicated the change in status on your logs.

Thank you.

Hello Kristen -

I heard back from Ann regarding the logs. She would like to see "PCB" indicated before the word "transformer" everywhere it occurs on the logs. Also, she mentioned the "stored for disposal" situation and would like to see a draft of one of those logs.

You might want to add a statement somewhere on the form indicating that there are no other PCBs (eg: PCB Articles, Containers, waste... ) on site.

You can send all of your annual documents in draft for our review if you would like to.

Date: 04/20/2010 03:10 PM  
Subject: Re: CA/FO: IMO New York Institute of Technology, TSCA-02-2010-9206

I'm at home and don't have a copy of the CA/FO with me, but my recollection is that there is no injunctive relief or SEP included as part of the settlement. Actually, none of our administrative TSCA or EPCRA 313 settlement agreements include injunctive relief. There may be a schedule for removal and disposal of PCB Transformers, but that is an agreed upon compliance schedule. Since the PCB Transformers were not registered with EPA timely, their use is no longer authorized. As a result, the transformers must either be reclassified so they are no longer PCB Transformers, or removed from service and disposed pursuant to the regulations. The group of transformers that had been de-energized were being stored in violation of the one year maximum storage limit.

Does this help?

Helen Ferrara - 04/20/2010 01:24:41 PM - Good afternoon - I have reviewed subject CA/FO for ratification. Unfortunately, I do not believe I

From: Helen Ferrara/R2/USEPA/US  
To: Vickie Pane/R2/USEPA/US@EPA, Daniel Kraft/R2/USEPA/US@EPA  
Date: 04/20/2010 01:24 PM  
Subject: CA/FO: IMO New York Institute of Technology, TSCA-02-2010-9206

Good afternoon -

I have reviewed subject CA/FO for ratification. Unfortunately, I do not believe that I have the authority to ratify this particular CA/FO. Eric Schaaf's 2/13/09 memo, summarizing the various delegations and forwarding electronic copies of each, in describing the various redelegations that give me the authority to ratify these agreements specifically excludes those CA/FOs that "include injunctive relief by specifying particular complying actions that the Respondent must perform." The delegations distinguish such excluded CA/FOs from those "that merely direct the Respondent to comply with the relevant laws or regulations, either by citing those laws or regulations or simply restating the obligations set out in those laws or regulations."

The latter are not considered to include injunctive relief and I may sign CA/FOs in that latter category.

Therefore, I believe that this particular CA/FO must be signed by the RA. Should I send it back through inter-office email?

Thanks.

Kristen -

You're right...we're getting there.

Ann suggests that your documents omit the wording, "owned and operated" and replace with just "owned" in the opening paragraph.

and for the transformers that were taken out of service: the date each item was removed from service and the date they were placed into storage for disposal needs to be added. In this case, those dates may be the same. If you don't know the exact date please estimate at least the month, not just "in 2007."

Thanks.

Subject: Speaking Engagement

---

Hi Vickie, hope all is well.

I just wanted to get EPA's approval on a speaking engagement I have scheduled for next year.

I have been requested by my national colleagues to speak at next year's ASSE (American Society of Safety Engineers) Conference in Chicago, Illinois. The topic will be Compliance Issues with PCB's in Transformers. As you are well aware we had a unique situation here at NYIT where we had PCB transformers removed as part of our Consent Agreement with the EPA. ASSE believes that people in my industry could really benefit from my experience.

I am under the impression that there are no issues with me speaking openly about my interactions with the EPA, but just wanted to get your feelings.

A proposal for review by the Conference Planning Committee is due in the next couple of weeks and I wanted to get your input prior to committing to anything. Thanks

---

Thank you for your guidance I will continue with the annual logs for our Central Islip Campus as you have instructed. I am working on obtaining a copy of the documentation regarding the reclassification of the two pyranol transformers in Schure Hall. This is a little tricky because a lot of our old files are in storage. I have already made a request to have the files shipped back to my office. I will need a little time to track them down and get them to you. I will keep you updated with my progress.

-Kristen

Good afternoon <sup>4:34</sup> Mr. Panella,

I tried to send this to you before, but I think it went out without my signature somehow. Therefore, I am resending it with my apologies if it comes to you twice.

It was good to see you again the other day. I hope that you found our brief discussion regarding the minor additions to your annual documents for the Central Islip site to be helpful.

Briefly, you do not need to reference when the transformers were registered or the quarterly inspections on you annual documents, but there should be a statement addressing other PCB equipment at your facility and a statement that references your PCB equipment inventory at the beginning of the year and at the end of the year, even if you have no additional equipment.

Thank you for providing us with copies of your October 19, 2005 letter and laboratory report regarding the two registered transformers. At the time of our inspection, we also requested a copy of the documentation regarding the reclassification of the two pyranol transformers in Schure Hall.

Please let me know if I can provide any additional assistance, and thank you very much for your continued cooperation.

Sincerely yours,

Chester/Vickie,

I was lucky and found a letter from 16 years ago! The letter addresses the reclassification of the two transformers located in the basement of the Harry Schure Hall Building. Hope this fulfills your request. If you have questions or need additional information please feel free to give me a call.

-Kristen
